Dear Ms. Langbert:

The Delaware Public Service Commission ("Commission") is in receipt of the application by Energy Auction House for certification to broker electric supply services in Delaware and the response to the request for additional information requested on May 30, 2014 and received in our office on June 16, 2014. In order to recommend approval of the application, additional information is necessary as indicated below. Staff would appreciate a response at by no later than July 25, 2014, however 26 *Del. Admin. C. § 3001* (the "Supplier Rules") section 2.4 provides that incomplete applications will be closed four months after the filing date, which would require a response prior to August 28, 2014. The original application lists the states that the Applicant is now or has been engaged in the retail sale of electricity: IL, PA, NJ, MD, OH, MA, ME, CT, NY, RI, TX, FL, GA, NC, SC, CA, IN, NH*.

- 1.) Please indicate which states you are currently authorized/actively engaged in the sale of electricity.
- 2.) Please indicate which states you are not currently engaged in the sale of electricity.
- 3.) Please provide a copy of the Letter of Good Standing for all states the company is currently engaging in the sale of electricity.
- 4.) Are there any states in which you authorization has been revoked?
- 5.) A signed, notarized verification of all information submitted by the Company as a request for additional information.

Section 2.1.1.4 of the Supplier Rules provides as follows: **Any Broker arranging the purchase of Electric Supply Service must procure electricity from an entity that complies with PJM's requirements and is a Certified Electric Supplier in the State.** Staff reminds the Company, that upon receiving certification it must comply with this section of the Supplier Rules.

Please provide an original and five copies (Staff will reserve the right to request the additional five copies, if necessary) of the requested information.
